## About Our Church

**The Church of Christ the Healer** reflects the *spirituality* of *contemporary* people. We value traditions of history, theology, and philosophy but not to the exclusion of what God seems to be doing in our time to create a new Church, a **welcoming Church** that opens its doors to ALL, including other spiritual traditions and experiences. We are here offering sacramental and clergy services to men and women from a wide variety of spiritual backgrounds and experiences. We want to grow and live a spiritual adventure and invite others to become part of that adventure.

We profess that we learn something about God from other religious and belief systems.

The Church of Christ the Healer is an **Optimistic Religion** that does not focus on Sin, Hell, Death, Failings or Denying Pleasure. We believe that we are Spiritual Beings having a Human Experience. We treat people as Human Beings, not sinners.

You do not have to be a member of this Church, or act or even believe a certain way to receive God's Grace or Sacraments here.

We offer respect and welcome to ALL. We understand ***we are all on a spiritual journey together.***
